Draft SEFTC Agenda - July 27, 2018

Action Items 2.

Regional Transportation Technical Advisory Committee (RTTAC)

Meeting Date: 07/11/2018

REQUESTED ACTION:

ADOPTION of 2045 Regional Network

WHAT THIS ACTION ACCOMPLISHES:

This action updates the Regional Network map with the latest data available using the previously approved criteria. The updated map makes the identified facilities eligible for funding from the Transportation Regional Incentive Program (TRIP).

SUMMARY EXPLANATION/BACKGROUND:

Section 339.155(4)(e) - Transportation planning states, "The regional transportation plan developed pursuant to this section must, at a minimum, identify regionally significant transportation facilities located within a regional transportation area and contain a prioritized list of regionally significant projects." The consulting team applied the previously accept criteria for classifying a facility as a part of the regional network which are:

- Principal Arterials – Interstate, Freeway/Expressway and all other Principal Arterials
- Planned Physical Extensions of Principal Arterials
- Strategic Intermodal System (SIS) Network
- Principal Arterial Connections
 - 2040 network criteria, plus..
 - Undesignated (by other criteria) segments of regional facilities with planned capacity improvements that connect two regional facilities.

The result was the addition and deletion of SIS Roadways, Other Roadways, SIS Rail, SIS Waterways, SIS Hubs.

ADDITIONAL INFORMATION/PREPARER:

Regional Transportation Technical Advisory Committee (RTTAC)

Meeting Date: 07/11/2018

REQUESTED ACTION:

MOTION to RECOMMEND resolution language to the Southeast Florida Transportation Council (SEFTC) in response to the Strategic Intermodal System (SIS) Designation update.

WHAT THIS ACTION ACCOMPLISHES:

Approval of this action will recommend that the SEFTC Board approve language to be included in a resolution responding to the Florida Department of Transportation's (FDOT) Strategic Intermodal System (SIS) Designation Criteria Update and direct RTTAC staff to transmit the approved resolution to FDOT.

SUMMARY EXPLANATION/BACKGROUND:

On June 27, 2018, FDOT presented their proposed SIS designation criteria changes in a webinar. During the webinar, staff became aware that some of the criteria changes being proposed by FDOT would cause the removal of the SIS designation from a number of facilities in Southeast Florida. Those facilities include the Miami River, the TriRail at Metrorail Transfer station and the TriRail Boca Raton station which are vital to the economic health and vitality of Southeast Florida and the State of Florida. Also omitted from SIS designation are Metrorail and TriRail to Downtown Miami connection. These proposed SIS designation criteria changes could potentially have an adverse impact on this region's ability to leverage Transportation Regional Incentive Program (TRIP) and/or other state and federal funds as these facilities are currently part of the Regional Transportation Network.
